

Surface Transportation Board, DOT

§ 1144.2

§ 1141.1 Procedures to calculate interest rates.

(a) For purposes of complying with a Board decision in an investigation or complaint proceeding, interest rates to be computed shall be the most recent U.S. Prime Rate as published by The Wall Street Journal. The rate levels will be determined as follows:

(1) For investigation proceedings, the interest rate shall be the U.S. Prime Rate as published by The Wall Street Journal in effect on the date the statement is filed accounting for all amounts received under the new rates.

(2) For complaint proceedings, the interest rate shall be the U.S. Prime Rate as published by The Wall Street Journal in effect on the day when the unlawful charge is paid. The interest rate in complaint proceedings shall be updated whenever The Wall Street Journal publishes a change to its reported U.S. Prime Rate. Updating will continue until the required reparation payments are made.

(b) For investigation proceedings, the reparations period shall begin on the date the investigation is started. For complaint proceedings, the reparations period shall begin on the date the unlawful charge is paid.

(c) For both investigation and complaint proceedings, the annual percentage rate shall be the same as the annual nominal (or stated) rate. Thus, the nominal rate must be factored exponentially to the power representing the portion of the year covered by the interest rate. A simple multiplication of the nominal rate by the portion of the year covered by the interest rate would not be appropriate because it would result in an effective rate in excess of the nominal rate. Under this “exponential” approach, the total cumulative reparations payment (including interest) is calculated by multiplying the interest factor for each period by the principal amount for that period plus any accumulated interest from previous periods. The “interest factor” for each period is 1.0 plus the interest rate for that period to the power representing the portion of the year covered by the interest rate.

PART 1144—INTRAMODAL RAIL COMPETITION

Sec.

1144.1 Negotiation.

1144.2 Prescription.

1144.3 General.

AUTHORITY: 49 U.S.C. 721, 10703, 10705, and 11102.

SOURCE: 67 FR 61290, Sept. 30, 2002, unless otherwise noted.

§ 1144.1 Negotiation.

(a) *Timing.* At least 5 days prior to seeking the prescription of a through route, joint rate, or reciprocal switching, the party intending to initiate such action must first seek to engage in negotiations to resolve its dispute with the prospective defendants.

(b) *Participation.* Participation or failure to participate in negotiations does not waive a party’s right to file a timely request for prescription.

(c) *Arbitration.* The parties may use arbitration as part of the negotiation process, or in lieu of litigation before the Board.

§ 1144.2 Prescription.

(a) *General.* A through route or a through rate shall be prescribed under 49 U.S.C. 10705, or a switching arrangement shall be established under 49 U.S.C. 11102, if the Board determines:

(1) That the prescription or establishment is necessary to remedy or prevent an act that is contrary to the competition policies of 49 U.S.C. 10101 or is otherwise anticompetitive, and otherwise satisfies the criteria of 49 U.S.C. 10705 and 11102, as appropriate. In making its determination, the Board shall take into account all relevant factors, including:

(i) The revenues of the involved railroads on the affected traffic via the rail routes in question.

(ii) The efficiency of the rail routes in question, including the costs of operating via those routes.

(iii) The rates or compensation charged or sought to be charged by the railroad or railroads from which prescription or establishment is sought.

(iv) The revenues, following the prescription, of the involved railroads for the traffic in question via the affected

§ 1144.3

route; the costs of the involved railroads for that traffic via that route; the ratios of those revenues to those costs; and all circumstances relevant to any difference in those ratios; provided that the mere loss of revenue to an affected carrier shall not be a basis for finding that a prescription or establishment is necessary to remedy or prevent an act contrary to the competitive standards of this section; and

(2) That either:

(i) The complaining shipper has used or would use the through route, through rate, or reciprocal switching to meet a significant portion of its current or future railroad transportation needs between the origin and destination; or

(ii) The complaining carrier has used or would use the affected through route, through rate, or reciprocal switching for a significant amount of traffic.

(b) Other considerations. (1) The Board will not consider product competition.

(2) If a railroad wishes to rely in any way on geographic competition, it will have the burden of proving the existence of effective geographic competition by clear and convincing evidence.

(3) When prescription of a through route, a through rate, or reciprocal switching is necessary to remedy or prevent an act contrary to the competitive standards of this section, the overall revenue inadequacy of the defendant railroad(s) will not be a basis for denying the prescription.

(4) Any proceeding under the terms of this section will be conducted and concluded by the Board on an expedited basis.

§ 1144.3 General.

(a) These rules will govern the Board's adjudication of individual cases pending on or after the effective date of these rules (October 31, 1985).

(b) Discovery under these rules is governed by the Board's general rules of discovery at 49 CFR part 1114.

(c) Any Board determinations or findings under this part with respect to compliance or non-compliance with the standards of § 1144.2 shall not be given any res judicata or collateral estoppel effect in any litigation involving the

49 CFR Ch. X (10–1–13 Edition)

same facts or controversy arising under the antitrust laws of the United States.

PART 1146—EXPEDITED RELIEF FOR SERVICE EMERGENCIES

AUTHORITY: 49 U.S.C. 721, 11101, and 11123.

§ 1146.1 Prescription of alternative rail service.

(a) *General.* Alternative rail service will be prescribed under 49 U.S.C. 11123(a) if the Board determines that, over an identified period of time, there has been a substantial, measurable deterioration or other demonstrated inadequacy in rail service provided by the incumbent carrier.

(b)(1) *Petition for Relief.* Affected shippers or railroads may seek the relief described in paragraph (a) of this section by filing an appropriate petition containing:

(i) A full explanation, together with all supporting evidence, to demonstrate that the standard for relief contained in paragraph (a) of this section is met;

(ii) A summary of the petitioner's discussions with the incumbent carrier of the service problems and the reasons why the incumbent carrier is unlikely to restore adequate rail service consistent with current transportation needs within a reasonable period of time;

(iii) A commitment from another available railroad to provide alternative service that would meet current transportation needs (or, if the petitioner is a railroad and does not have an agreement from the alternative carrier, an explanation as to why it does not), and an explanation of how the alternative service would be provided safely without degrading service to the existing customers of the alternative carrier and without unreasonably interfering with the incumbent's overall ability to provide service; and

(iv) A certification of service of the petition, by hand or by overnight delivery, on the incumbent carrier, the proposed alternative carrier, and the Federal Railroad Administration.

(2) *Reply.* The incumbent carrier must file a reply to a petition under
